Some General Information About Pattern Natural Stone

Thickness

We recommend the following thickness specifications for pattern natural stone.

- 1" Thick Stone - requires a concrete foundation
- 1.5" Thick Stone - can rest on a bed of processed stone (stone dust, quarry dust, 1/4" gravel, etc.).

Coverage

Coverage in a pallet can vary by the type of stone, it's thickness and even the specific quarry it comes from. As a general rule of thumb at Wicki Stone:

- 1" Thick Bluestone Pallet - covers 220 square feet, weighs roughly 1.5 tons.
- 1.5" Thick Bluestone Pallet - covers 180 square feet, weighs roughly 1.5 tons.

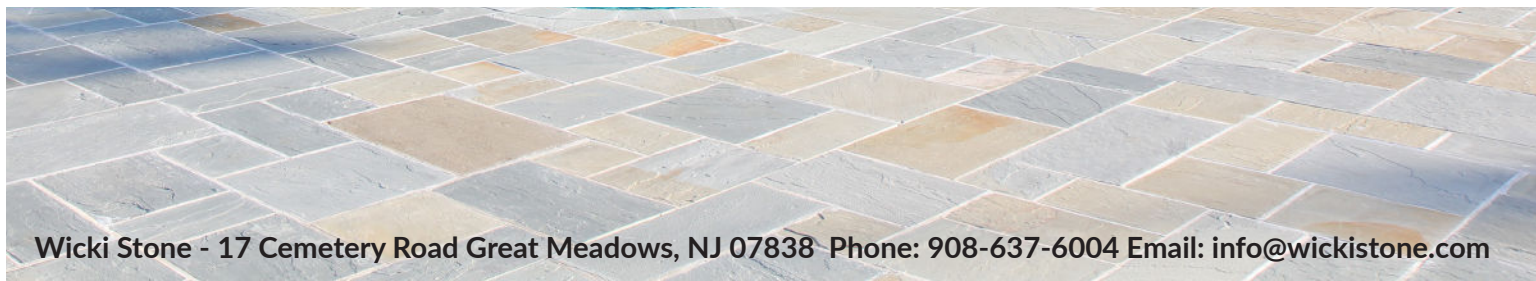

How It Is Sold

Pattern Stone is typically sold by the pallet

At Wicki Stone we do have open pallets of select types of pattern stone (mostly bluestone) where you can buy individual pieces of varying sizes.

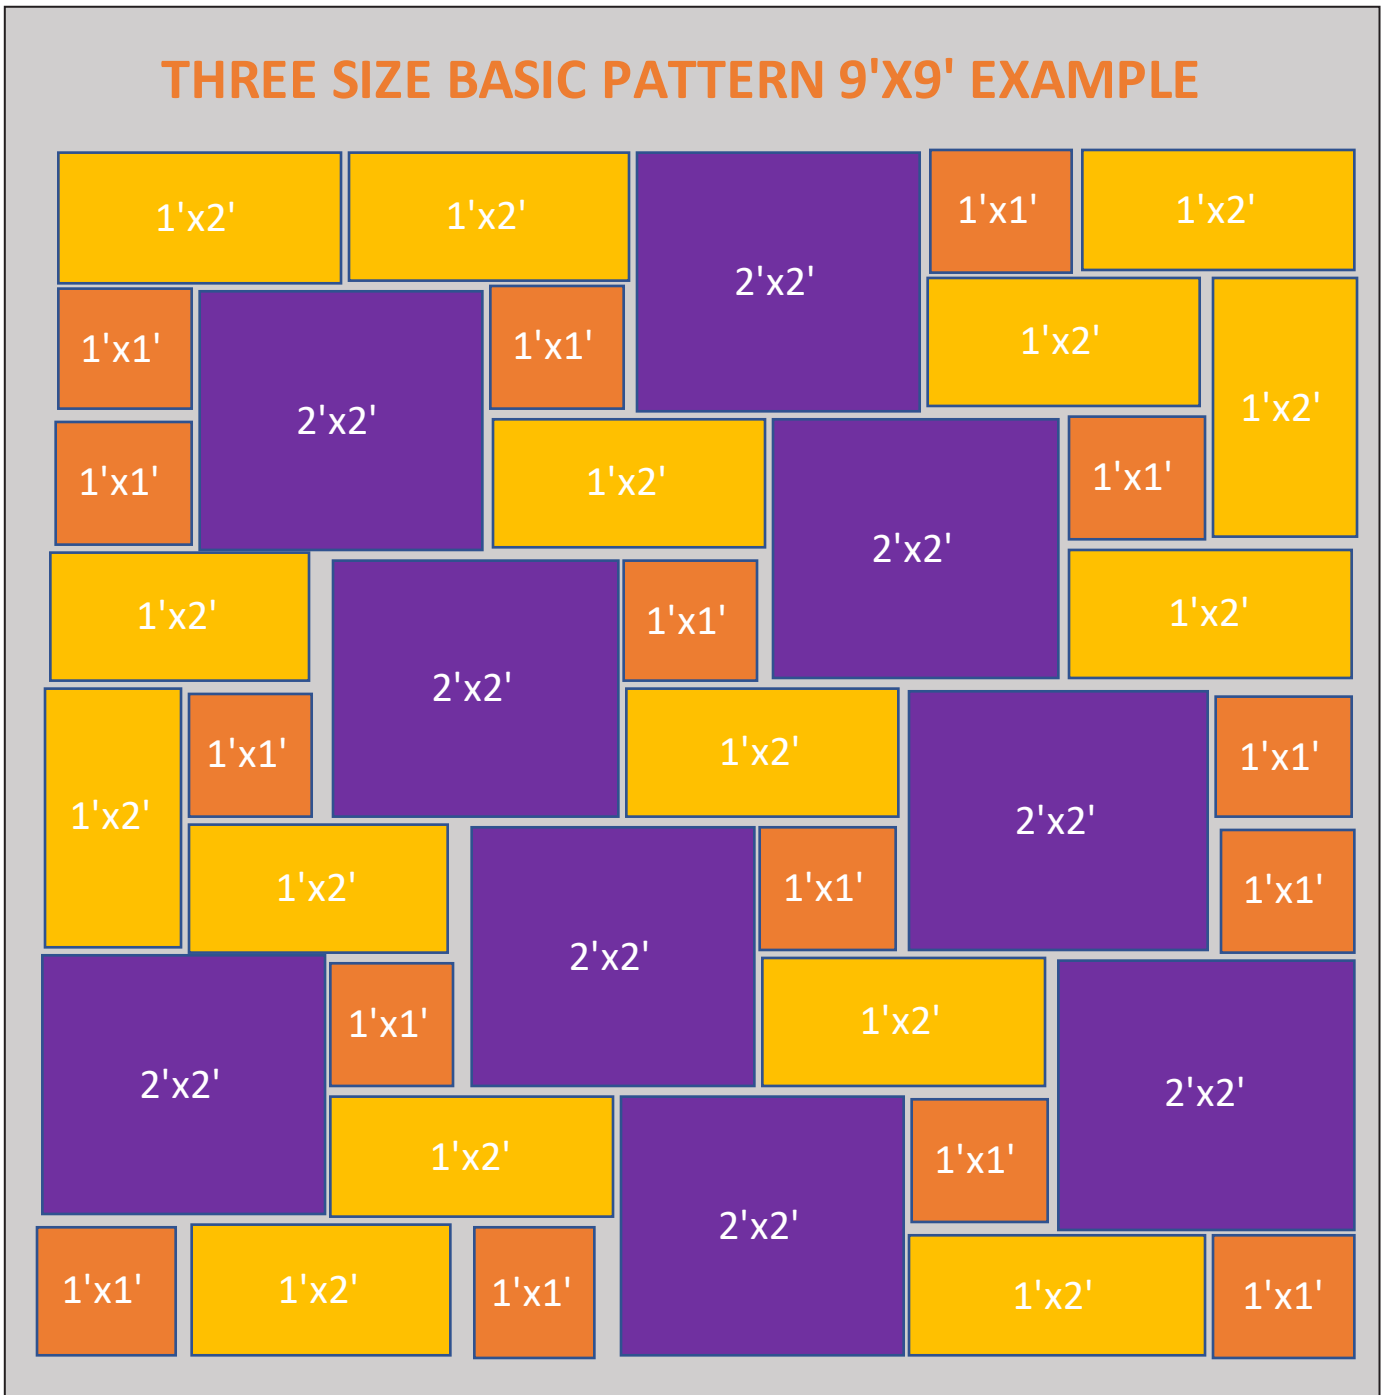

How It Is Priced

At Wicki Stone pattern stone is priced by the square foot. Call 908-637-6004 for pricing.
